Within the neighborhood there are a lot of cul-de-sacs which encourages neighborliness. In the surveys that I have done so far, the neighbors prize safety, knowing the neighbors, quiet.

Other things survey respondents like:
- Speed bumps; people; houses/lots; no sidewalks; lights; memories;
- the neighborhood is nice; and age of the neighborhood

Who answered the survey?
- 47 members of the Amphi-Mountain View Community
- Surveys were collected door-to-door by a neighborhood connector.
- 100% were completed in English
COMMUNITY ORGANIZATIONS

Amphi Neighborhood Association
The Amphi Neighborhood Association was formed on September 2nd, 1997, to preserve neighborhood integrity and to retain established land use patterns that enhance the quality of life for residents. Past accomplishments include establishment of Amphi Neighborhood Park, renovation of neighborhood houses, feeding the needy, building a neighborhood meeting place, building a community garden (since closed down), and obtaining grant funding for neighborhood improvements.

Mountain View Neighborhood Association
Meets monthly at Metropolitan Community Church Water of Life.

Salvation Army Amphi Corps
The Salvation Army's Amphi Corps is a multi-purpose neighborhood center that serves the Amphi/Flowing Wells area, as well as the city of Tucson. A hub of the community for over a quarter of a century, the center offers programs and services aimed at the surrounding economically disadvantaged neighborhood, including weekday distribution of food boxes. Facilities include a fully equipped gymnasium, weight room, arts & crafts area and computer room. The center also operates after-school sport and recreation programs, as well as summer day camps, field trips and Vacation Bible School. Additionally, they sponsor numerous seasonal and ongoing community outreach programs, special events and services through the center. The Chapel provides full worship services, counseling and Sunday services in the adjoining chapel.

Casa de Los Niños Thrift Store
Casa de los Niños is dedicated to the prevention of child abuse and the care of children who have already been abused. The thrift store is almost as old as the program itself.

FAITH-BASED ORGANIZATIONS

Seven faith-based organizations were observed in the Amphi and Mountain View neighborhoods, all of them churches.

SOURCES:
Seven recreational facilities were identified in the Amphi / Mountain View neighborhoods (see map at right). These include:

- **Amphitheater High School**  
  125 W. Yavapai Rd.
- **Amphitheater Middle School**  
  315 E. Prince Rd.

ACTIVE TRANSPORTATION

Bikeability

Bike Routes
Amphi / Mountain View has numerous bike routes and several bikeable residential streets (see map below).

Notes from observational assessment:

- Mountain Avenue bikeway north of Ft. Lowell Road looks more freshly paved than other roads (see photos at right).
- Oracle Road bike route is located on a busy street.
- Of 6 neighborhood food sources assessed for accessibility by bike, all are located on designated bike routes or bikeable streets; none has a bike rack.

Most Common Bike/ Walk Destinations

Thirty-six (77%) of survey respondents walk or bike in the neighborhood.

Twenty-four (51%) of respondents say it is possible for them to grow fruits, vegetables or eggs; and 40% said they want to grow them.

**Main reasons for NOT being able to grow fruits, vegetables or eggs were:**

1. Resources (Time/Money) (43%)
2. Environment (Soil, Water) (21%)
3. Unsure How (14%)

**Other reasons:** just haven’t, too old, no eggs, do not wish to raise chickens.

Thirty-nine (83%) of respondents say they drive their car to the grocery store.

The average amount of time it takes to get to the grocery store is 17 minutes, with a range of 1 minute to 60 minutes.
Together, fast food restaurants, taquerias, and dollar stores account for more than one-quarter of food vendors in Amphi / Mountain View. Local sit-down restaurants (23%) account for the greatest proportion of food vendors.

Of the 18 food vendors assessed, more than half stock fruits and vegetables. At locations where produce was stocked, these items are found frequently, with some to a lot of variety and adequate to good quality. Low fat products were also visible at more than half of these locations, while whole grain products were visible at less than half and low sugar products were found at less than one-quarter.

AMPHI-MOUNTAIN VIEW NEIGHBORHOOD CONCERNS

Top Concerns When Outside

N = 47

- Lack of Sidewalks: 40%
- Garbage in the streets/sidewalks: 40%
- Old/Abandoned furniture on sidewalks: 34%
- Ugly, unattractive routes: 30%
- Stray dogs: 30%
- Traffic speed: 28%

Other concerns when outside: gangs; hot, sunny, exposed routes; unsupervised kids; threatening situations (drugs/crime/harassment); too much traffic; cars parked on sidewalks; poor air quality; dangerous street crossings; and too many bars/liquor stores.

THREE most popular ways to improve access to fresh fruits and vegetables:

N = 47

- Provide technical assistance for vegetable growing and water-harvesting (32%).
- Establish a community garden (30%).
- Provide education and information on urban farming and chickens so we can produce our own food (28%).
OPPORTUNITIES

Are there additional resources that your neighborhood needs in order to make any of its health and wellness efforts more sustainable?

1. Increased Infrastructure
   - The Arizona Opera Building redone into a center with space for non profits and a health and wellness center, parks and playgrounds
   - Utility easement in a back alley – install a smooth river walk pathway for bikes and walking and transportation paths angled so that they serve as water funnel for community gardens.

2. Community projects
   - Green retrofit co-op through which residents join together to do energy retrofits on homes.
   - Water catchment systems with the assistance of the Watershed Management Group.

3. Community Gardens

   (Community projects) will get people out exercising, give them healthy alternatives, increased socialization and contact that reduces stress and builds resilience between individuals and in the community so people don’t feel all alone and isolated but they feel can work together to make connections.
